CSCN 340 Research Paper & Presentation Assignment

Assignment Deliverables:

There are three deliverables for this assignment. All of them must be completed. Failure to complete any of the four deliverables will result in you being unable to submit the follow-on deliverables. These deliverables are:

1. Topic Selection 10 points
2. Mid-term Project Review (video submission) 20 points
3. Final Research Paper 100 points
4. In-Class Presentation 70 points

Student Learning Outcomes:

Three of our Program Learning Outcomes are specifically measures in this assignment.

- PLO-3a Present technical information effectively
- PLO-3b Communicate effectively in technical writings
- PLO-4b Make informed judgments in computing practice based on ethical principles
- PLO-7a Conduct best practices in Computer Sciences while maintaining a Christian Worldview

Deliverable 1-Research Topic Selection

A topic proposal is a short document used to propose your topic. In this case, it is an Information Security Topic with an Ethical and Christian Worldview emphasis. The final document will be a research paper and the basis of your Ethical and Christian Worldview presentations in the final week of this course.

Deliverable 2--Mid-Term Program Review

A program review is a briefing on the status of your work—in this case, research paper progress. Solid research work can not be completed in the week it is dure. Solid research calls for a literature review where you capture the status of the topic area. You may find you need to review 5 to 10 different articles or other resources to really capture what is known about a topic.

To complete this you will need to record a video presentation of 5 to 10 minutes to present the state of your research. Topics include, but are not limited to:

- Introduction
- Body
  - Review of Topic approval and any updates/revision.
    - Many times in our research as we start down one path, we find some stuff that may be distracting or might be a better direction.
    - If you want to change your topic, this is the opportunity to obtain approval
  - Where you are in the process—status checklist so to speak
    - Expectation would be by Mid-Term, you would be completed with the Technology research and started on the Literature Review section of your paper
    - The technology Literature Review will most likely be the longest section of the paper as you need to convince the audience you have sufficient knowledge of the technology

    - Plan -- Including timeline to the final deliverables (paper and presentation)
- Conclusion

Deliverable 3—Research Paper

For this deliverable you will be required to complete a final research paper. A template is provided for the format of this paper.

The main heading in this paper will include but are not limited to:

- Abstract
- Introduction
- Proposal Description
    - Technology Literature Review
    - Ethical Considerations Convince the reviewer that you know Ethical issues as stated in The Code
        - Use the ACM Code for this area
        - Include 2 or more Ethical Issues
        - Include 2 or more Professional Responsibilities
    - Christian Worldview Consideration
        - Of Course the Bible is your best reference here
        - This is a deep dive to determine a correlation between Theology and Technology
        - Need to convince the reviewer that you have a deeper understanding of the Christian Worldview
- Conclusion
